Information

Footage and DVD of the *Limes*

Soon World Heritage Site? The UNESCO will decide in July 2005 if the German Limes will join Hadrian's Wall as World Heritage Site. The Limes was the former Roman frontier in Germany with a length of more than 500 km. Boundary Productions has filmed several years and has gained fantastic footage and photography of this huge monument. For reports on TV, in magazines, etc. about the Limes and the Roman frontiers in Europe, Boundary Productions is able to provide a variety of footage, photography and information.

In co-operation with the state authorities for heritage and archaeology in Germany, Boundary Productions is working on a documentary film about the Limes in Germany – a fascinating archaeological monument like Hadrian's Wall. The documentary film will be released in September 2005 on DVD. On the DVD there will be the main documentary film about the history of and research on the German Limes (approx. 45 Min.) and lots of short films, interactive features and information for print out. The DVD with all the features will also be available in English!

Boundary Productions is happy to provide the footage collected (footage of the monuments and re-constructions, aerial footage, 3D-re-constructions, animated maps, re-enactment, museums, landscape shoots, interviews, footage of the Danube-Limes, the Rhine-Limes, and many more for broadcasting (news on TV, etc.), the Internet, magazines, etc. The price of the footage can be quite low because of funding. If you are interested, please contact us (see below). A list of the footage (DVCAM) and also information on the Limes can be provided.

You will find more information about the German Limes and the DVD-project on the Internet: www.limesfilm.de. If you have any questions, please do not hesitate to contact us.
